I'm writing to express my support  
for RM-8653; Apple's request  
to grant bandwidth to public,  
license free use. *Gerald J. Klars*

Regarding petition RM-8653,  
I urge you to grant this  
petition to open up 300Mhz  
of spectrum to be used freely  
by the people, not entrenched interests,  
in ways that will help the US  
remain a technology leader into the 21st century.

I am a computer consultant. The proposal RM-8653 would provide a real benefit to computer users. I believe that it is a much better proposal than the one presented by WIN Forum group.

Re: RM-8653

I hereby express my strong support  
for the Apple petition concerning its  
"NII Band" proposal for a reserved  
public spectrum. I oppose the SUPERNet  
proposal from WinForum.

I would like to log my support  
for Apple's NII proposal. I  
strongly endorse this proposal and  
believe it could have an incredible  
impact on U.S. competitiveness.

This is in reference to petition RM-8653.

Yes!  
I strongly support the  
idea of more BANDWIDTH  
on the Internet, available to  
the public for education, &  
commerce.

Sincerely,  
Ann Lynnworth
